YUKON RIVER BASIN STUDY

This project was completed for the Yukon River Basin Study, an intergovernmental study funded by the governments of Canada, Yukon and British Columbia.

YUKON RIVER BASIN STUDY

TECHNICAL REPORT: WATER QUALITY NO. 6

BIBLIOGRAPHY OF WATER QUALITY INFORMATION

Report 6A - Bibliography of Water Quality Information from the Yukon River Basin

Report 6B - Bibliography - Studies of Processes Relevant to Water Quality of the Yukon River Basin

WATER QUALITY WORK GROUP*
December 1983

The preparation of this report was coordinated by the Environmental Protection Service for the Yukon River Basin Committee under the terms of "An Agreement Respecting Studies and Planning of Water Resources in the Yukon River Basin" between Canada, British Columbia and Yukon.

*Membership of Water Quality Work Group:
J. Nickel, Chairman, DIAND
P. Whitfield, IWD/DOE
M. Jack, DIAND
B. Wilkes, MOE/B.C.
G. Mackenzie-Grieve, EPS/DOE

INTRODUCTION

The following reference lists were prepared by the Water Quality Work Group early in the project to provide an overview of the amount and type of water quality information present from the Yukon River Basin. A second objective was to identify studies done in other watersheds with similar conditions which would relate to processes occuring in the Yukon River Basin that may influence water quality.

The material identified in these reference lists is available from the Environmental Protection Service library in Whitehorse.
